Foreward

After all this time of virtually coming out with little writiing,I have decided that this will remain until I am allowed a publishing chance or receive a substantial amount of money for the prod--ucing of further work.As for the notes,they shall appear as 'Notes about notes' which will be comple--ted as soon as possible.Also I am very displeased at responses that I am receiving about my work,in fact I shall explain all my techniques and styles or whatever you phillisteins call it,and then you shall see what I'm talking about,since you morons do not have a 'clue'.Just for the record I shall sum up in one word : HOOTON(at a surrealist exhibition.) I have changed my name,which is not formal yet,but I suppose that will only be a matter of time.The new name will be as follows : Freidrich Harry Jelisavac. If there any objections,I suppose they will be not heard,since people are not interested in what I have to say, then I am not interested in what they have to say.Another reason for the name change,was that I felt that my previous name had too much nat--ionalism involved with it,so changing the name,I had decided,would be more than appropriate.I feel that TITAN is moving along O.K. even in it's inadeq--uate form. This number will be the last one that will be typesetted from a typewriter.So anyone who who plays around with what I have to say,they shall have ME To answer to.

Freidrich Harry Jelisavac.

Morality as Anti-nature" -Part 4 From :
"Twilight of the idols"

-I formulate a principle.All naturalism in morality,is dominated by an instinct of life-some commandment of life is fulfilled through a certain canon of 'shall' and 'shall not', some hindrance and hostile element on life's road is therby removed.Anti-natural morality, that is virtually every morality that has hith--ero been taught,reverenced and preached,turns on the contrary precisely against the instincts of life-it is a now secret,now loud and impudent condemnation of these instincts.By saying 'God sees into the heart' it denied the deepest and the highest desires of life and takes God for the enemy of life...The saint in whom God takes pleasure is the ideal castrate...Life is at an end where the 'Kingdom of God' begins...

Friedrich Nietszche

36. Whether we immoralists do virtue any harm? - As little as anarchists do princes. Only since they have been shot at do they again sit firmly on their thrones.Moral: one must shoot at morals.

43. What does it matter that I am proved right! I am too much in the right.-And he who laughs best today will also laugh last.

44.Formula of my happiness : a Yes,a No,a straight line, a goal...

ART-WALTZ

Molton tuxedo and dresses,
callipered with melt,
hinged the polished floor,
with these millions of renaissance-competitors,
screaming for God or Satan.
Their belts of barbed-wire,
bladed their heart-minds,
while the blood spilt,
was fed to the mind of one,
working and dancing,
just as they had always been,
flesh competed against steel,
painting floor-plans,
for use in the ballroom's dining hall.
The laughter was intense,
whayever congested act was on,
there was laughter anyway,
this masked deliberacy,
were sold to the gifts of machines.
Randwick's reccession,
enjoyed the voltages of iron,
straining and stretching,
tighter than a spool of snow,
and during this time,
I sat and observed,
this obvious hoax of fascia,
their plans of old were to be new,
self-grip viced their spools,
moving when moving inward,
flowery self-portraits,
the background was painted,
onto a board of flesh,
dice rolled,
then the chairs moved.
I stood there in horror and bewilderment,
when I once again caught my breath,
I then said as loud as I could speak:
"THIS IS NOT ART!"

GREATER WAR

Lynch any man,and it's you and me
And every man's Gethsemane.
It is ONE man on earth cries,
In the crucifiers and crucified,
In the felon,the foolish and the wise:
Oh man,why hast thou mistaken me
For this Earth which is our enemy?

Hear the slowcialist parties cry:
'We must ban ATOMIC war'
But one blockbuster made Hamburg rise
In a thousand human agonies.
Lift ANY thing,whether sword or pen:
It isn't the weapon,or the war-
But whether we wage wars on MEN.

If 'Peace hath her victories',she must have WARS.
You can prey for'Peace'-we'll prey for POWER.
For life IS power.and lust,and strife-
But the ENEMY need not be life!
Hit the real foes-floods,fires,stars:
There is nothing wrong in the human race,
But there's a million armies to fight in space.

THE EYES HAVE IT

There are eyes,dull,opaque,the backs of mirrors-
Looking within,self-centered,dead.
There are eyes,clear,the fronts of mirrors;
You can see your face therein-as prey.
There are eyes,translucent windows,
Through which man sees-the world.
Oh,leave the subject-
Man,the creator,the hero,the unknown!
Reach the object-our creatures,
The cities of steel we own.
For there is all hell's hunger in any eyes
Looking at man alone-
In the psycologist-detective-whodunnit's eyes
Seeking what you have done:
The terrible eyes of gorgon,medusa,
Turning men into stone.

"Greater War" from "It is great to be alive" 1961
"The eyes have it" from "It is great to be alive"
both pieces by Harry HOOTON.

The Germany case

Their 'sprit' like most people indulge in, explains itself in the form of christianity. The Germans thirst for national identity or mittel europa, has had it's roots since the Holy Roman empire or the 1st Reich to be more accurate. No thanks to one of the fairly recent in the line of sick lunatics to roam the planet, in the form of hitler (via mein kampf) we now have the hang-over problem of nationalism - possibly the 4th Reich. After world war two : east and west Germany had been created after the collapse of Germany. Berlin was walled, and then the 'cold war' began. Now in our 'liberal' times, the wall came down, after more than forty years of standing, to divide the city into two. Realistically speaking, the wall was really a public apparatus of deceit, since the Germanies were considered mutually opposed, when in actual fact they were identical in the agenda of politics. No wonder the rise of nazism is more prominent in the former communist east Germany. These people I suppose know no difference. For them, the wheel or circle of politics has fully turned. Like stalin with the kellog pact, proves the point that politics is schizophrenia. (double-head) see Politics, as it's reputation has shown us, has given birth to the beggining of the 4th Reich, even though Germany is still coming in tune economically etc with the union. I would say that soon, it will become quite powerful, in fact it will play the major role in dictating terms of the E.E.C's economic stage plays. Together with Japan and the brawn of America, world dictatorship, via the 'new world order' is just around the corner, or even in the stage of initial praxis.

The world paralysis is evident with the former 2nd and 3rd world, are now coming to fully realise that they are actually on their knees to the 1st world, and are their slaves in the fullest form. For example the money lent to repay debts and to buy goods is extorted through the interest rates, or in small amounts via aid. The convers-ion from communism to capitalism proves that they are both identical in agenda. Both nationalistic, both in total chaos. The worst thing about this tragedy is they simply won't admit their insanities. It is either that people have the intelligence of a cabbage, or they cannot do anything about their situation.

Germany is on the march,and this time it won't be lebensraum with troops,more like lebensraum via economics,like Japan are forming companies elite power-structures over the populations of the world.Their touch of death makes me want to vomit.But can we do to destroy this tragedy? I would say that the oil companies,drug cartels, weapon exibitions and sales (Australia,naughty naughty!!!)C.I.A,military juntas,despotic gov--ernemnts,police states along anything else th--at I have missed out,all contribute to concen--trating power in such few hands,which control-everything.Germany is thirsting for world power.

Most Germans are proud of their 'race' a proud people with a destiny to fulfill.Like it's ancient cousin - the Roman empire,it is on the virge of some sought of great empire.The state-capital is in control (with God as guide) there will be no turning back for them.This is as far as I m con--cerned,the 'final authority' over people.I don't know for how long,or at what cost of humanity,but the amount of blood spilt,and death,has given me this viewpoint.I will say that humanity should have learnt from their mistakes by now.If not,then the circle of politics or death in life will con--tinue until people break the lock.

Astrology : Fraud or superstition? (Sharp press)

When looking at the stars at night,I immediately think to myself of all the horopscopes in the new--spapers,magazines etc.For many centuries,most humans have had their, their lives,ruined, by the controlling of stars,either with examples with 'lunar observatories' like stonehenge,the pyramids or by priestian records to name just a few examp--les.The inability of people to recognise that the stars do not influence/directs their lives,is quite astonishing,since there are many people absorbed by this phenomenal brainwashing and manipulation. After reading this pamphlet,I had come to the conc--lusion that it was the best attack upon the psuper--stitious that I have come across.The best paragraph of information,was correctly pointing out that, virtually all of the top nazis were believers in astrology,proving the amount of nazis we have running around!! Along with many other hard-hitting facts, this pamphlet will put into neccessary destruction of one of the most polluting perversions,humans have poisoned themselves with.I am completely pleased with this short,but excellent piece of work.I will be bitterly disappointed,if this pamphlet does not get the credit it deserves.
